4 ayes 0 noes So Carried

Motion made by Supervisor Mason to adjourn the meeting. Second by Councilman Austin

4 ayes

0 noes

So Carried

The above is true and accurate to the best of my knowledge.

Dawn Bentley

Town Clerk

The next meeting will be September 11, 2024 at the Town of Hume Mueseum/Courthouse at 7:00 pm.

**TOWN OF HUME  
RESOLUTION #5**

**AUTHORIZING TOWN SUPERVISOR AND TOWN JUSTICE TO APPLY TO THE STATE OF NEW YORK FOR A JUSTICE COURT ASSISTANCE PROGRAM (JCAP) GRANT TO BE USED FOR SECURITY, TECHNOLOGICAL EQUIPMENT, AND COURT FACILITY IMPROVEMENTS**

At a regular meeting of the Town Board of the Town of Hume, County of Allegany, State of New York, held at the Town of Hume Museum, Courtroom, 10842 Claybed Rd., Hume, New York 14745 on August 14, 2024, at 7:00 PM there were:

Supervisor	Darlene Mason	<u>present</u>
Councilman	Warren Smith	<u>present</u>
Councilman	Andrew Peet	<u>absent</u>
Councilman	Christopher Austin	<u>absent</u>
Councilman	Peter Hopkins	<u>present</u>

The following resolution was offered by Pete Hopkins,  
Who moved for its adoption, and was seconded by Warren Smith, as  
follows:

WHEREAS, the New York Unified Court System Office of Court Administration has advised that a grant is available from the Justice Court Assistance Program; and

WHEREAS, the maximum JCAP award is \$30,000 per court which may be used for a variety of purposes, including office and security equipment, furniture courtroom and court facility improvements and renovations; and

WHEREAS, the Town Justice and Town Board have determined that the Town of Hume Justice court requires improvements to enhance security and safety, the ability to provide technological equipment to allow for video conferencing as well as digital evidence presentation, signage, and building maintenance, and

WHEREAS, it is the desire of the Town of Hume and its Justice Court to apply for such a grant for the above-described purposes.

NOW, THEREFORE, it is hereby resolved that the Town of Hume hereby authorizes the Hume Town Court to apply for the JCAP grant in the 2024-25 grant cycle up to \$30,000.00 or

the exact amount being requested, and the Supervisor is authorized to execute all documents necessary to effectuate said request, application and acceptance of any monies received in connection with this grant.

The foregoing resolution was duly put to a roll call vote with the following results:

Darlene Mason	voting	<u>yes</u>
Andrew Peet	voting	<u>absent</u>
Warren Smith	voting	<u>yes</u>
Christopher Austin	voting	<u>absent</u>
Peter Hopkins	voting	<u>yes</u>

The Supervisor declared the Resolution was thereupon duly adopted

Dated August 14, 2024.

Darlene M. Mason  
Darlene Mason, Town Supervisor  
Town of Hume

State of New York    }  
                                  } SS:  
County of Allegany    }

I, the undersigned Deputy Town Clerk of the Town of Hume, DO HEREBY CERTIFY that the preceding resolution was duly adopted by the Town Board of the Town of Hume at a regular meeting of the said Town Board held on the 14<sup>th</sup> of August, 2024, and that said resolution was entered in the minutes of said meeting.

## **CR 4 OVER GENESEE RIVER BRIDGE REHABILITATION**

This project proposes to rehabilitate the bridge that carries County Road 4 (E. Main St.) over the Genesee River in the Town of Hume. The purpose of this meeting is to provide information regarding the project objectives and alternatives being considered at a point in the project development where public input can be considered in alternative selection and final design.

### **Background:**

The bridge that carries CR 4 over the Genesee River was built in 1980 and is a four-span steel multi-girder structure with a concrete deck founded on concrete abutments. The existing bridge is in overall good condition, however there are several elements that are starting to deteriorate and become deficient. Current deficiencies include spalling and cracking of the reinforced concrete deck and reinforced concrete approach slabs, failed bridge joints at both abutments, deterioration to bearings at abutments, non-standard bridge railing, and spalling and deterioration of the existing abutments. A gravel bar in the river has also built up over time around the bridge. This is pushing the water in the river to the east side of the river and is causing erosion to the eastern river bank immediately upstream of the bridge.

### **Project Objectives:**

The objective of this project is to preserve and prolong the life of the existing bridge through cost effective rehabilitation strategies.

### **Alternatives Considered:**

Three (3) alternatives were considered as a solution to the identified problems. They are:

1. Null Alternative; 2. Replacement; 3. Rehabilitation.

1. The Null Alternative provides for only continued maintenance of the structure. This alternative implies that no major repairs or improvements would be made to the structure and that the existing conditions and deficiencies would remain. The costs associated with this alternative would include the increasing amount of time and money needed to maintain the structure and keep it open to traffic. This alternative will not satisfy the project objectives so it was removed from further consideration.
2. The Replacement Alternative would involve replacing the existing bridge with a new bridge meeting current design standards. This alternative would satisfy the project objectives but has been determined to not be cost effective given the overall good condition of the existing bridge. Therefore it was removed from further consideration.
3. The Rehabilitation Alternative would involve rehabilitation of the existing abutments, replacement of the existing bearings at the abutments, cleaning and painting the ends of the existing steel beams, complete replacement of the existing bridge deck with a new concrete bridge deck, complete replacement of the concrete approach slabs, construction of new bridge and approach guide rail, cleaning and washing all bridge components, removal of built up gravel bar around the bridge, and installation of heavy rip rap along the eastern river bank to prevent future erosion. This alternative has been identified as the only prudent and feasible solution that meets the project objectives.

### **Project Parameters:**

- Funded through the BridgeNY Program (95% Federal, 5% Local)
- One, alternating lane of traffic on the bridge during construction.
- No Right of Way easements or acquisitions are anticipated.
- No utility impacts are anticipated.

**Alternative Costs:**

Bridge Replacement	\$12,500,000
Bridge Rehabilitation	\$5,700,000 (46% of cost to replace)

**Schedule:**

Design Approval	September 2024
Letting	September 2025
Construction Complete	November 2026

**Next Course of Action:**

Following this meeting and the receipt of comments, final alternative selection and completion of the final design report will be done, incorporating any input received.
